Provincial Policies

A message from Brad Severin, Government
Affairs Chair & Chamber Vice President

Please see below the policies that have been
submitted to the ACC for debate at the AGM.

Government Advocacy is one of the four
pillars that Chambers of Commerce do
within their communities to represent their
membership. Please see a brief explanation
of each policy below:

"Joint Filing of Spousal Personal Income Tax Returns"

This policy asks the federal government to treat spouses as a single "family unit" for taxation purposes and allow for families to file a Joint Spousal Income Tax return.

"Including Nuclear in Alberta's Energy Mix"

This policy promotes the use of nuclear Small Modular Reactor technology as a part of a cleaner energy grid in Alberta.

"Incentivizing Abandoned Well Clean-up and Reinvestment in Alberta"

This policy asks the provincial government to create a tax credit program that encourages well reclamation, promotes new drilling in Alberta, and restores local community livelihoods.

"Consolidation of Corporate Groups in Canada"

This policy asks the federal government to review the Income Tax Act and create a formal taxation system allowing for consolidated reporting and/or loss transfers within members of a common corporate group.

"Alberta's Opportunity in the Hydrogen Economy"

This policy supports the research and production of blue hydrogen in Alberta as well as supports the research and infrastructure needs for Carbon Capture Utilization and Storage technology to accommodate blue hydrogen energy.
